

Homework Pack

Dear Parents/Carers,

This homework pack provides a range of activities to support your child's learning at home. The pack includes a range of tasks around literacy and numeracy and there are some practical activities too. Some work is computer based however don't worry if you are unable to access a computer. The pack is not to be used immediately, please keep it and use it **if the school closes**.

At any point you can e-mail your teacher about the activities if you would like to and he/she will reply to you.
